- Discussion with the participants of the Info day;

Participants of the Info day from enterprises, faculties, institutions and students, have expressed great interest for the current project activities, the activities of Cooperative Training Centres, IFP and PPP programs, and CAD - Pro/ENGINEER i OFFICE informatics trainings.

According to the questionnaires' results, filled out by the participants, the general evaluation mark was **4,68 out of 5**. When asked which of these models of cooperation were most appropriate and useful for the implementation and launching of University modernization and industry transformation, as well as for launching innovation, the participants answered in percents, as follows:

1. The establishment of scientific and technology parks in regional university centers that can be generators for the new start-up and spin-off companies;
2. The establishment of regional industrial clusters at the level of Western Balkans, depending on the research areas and operations;
3. Forming a consortium of universities and companies to jointly participate in FP7, TEMPUS, EUREKA and other projects financed by the European Union;
4. The establishment of regional collaborative training and/or Lifelong education centers;
5. The establishment of open innovation networks;
6. Student mobility within the student practices;
7. IF programme for graduates and employees.
