## 1. PROJECT MONITORING

### 1.1. Basic principles of monitoring

Monitoring is of key importance in ensuring high quality project performance. Identifying problems early on can avoid the investment of significant resources into the completion of ineffective activities and can help to identify mistakes that need to be rectified.

Monitoring is carried out by assessing both the work completed to date, and the planned activity. Effectively this means through assessment against logical framework, your Workplan and Budget table (cash flow).

Two principle questions should be asked:

- Have the activities completed to date had the required results?
- Have the results contributed sufficiently to the achievement of the specific objective?

Monitoring should take into account a variety of information from a variety of different sources.

#### **Types of monitoring activities**

Site visits  
Interviews with staff or project personnel  
Research e.g. questionnaires to suppliers or clients  
Observation of project activities  
Analysis of Logical Framework Matrix (LFM)  
Analysis of technical reports and other documents  
Analysis of financial documents

### 1.2. Monitoring techniques

Three mechanisms are required to ensure all grants are carried out successfully:

- Internal monitoring
- External monitoring
- Technical and financial reporting

#### 1.2.1. Internal monitoring

Internal evaluation by the Project partners – this is the most important. This should be a continuous process and not one something that is done solely prior to the preparation of the six – monthly or final reports. This is an internal process and should be carried out in consultation with a range of stakeholders. These may include clients, suppliers and partners.

It is also essential that the monitoring is carried out through consultation with the end users. If we are providing services to businesses we should be getting feedback from them regarding the

quality of the services delivered and how they could be improved. If we are providing trainings then survey how effective is it. What results do we intend to achieve? Increased productivity? Export contracts? Improved knowledge and skills of trainees?

### Using LFM for self – evaluation and monitoring

Look at LFM to assess the following:

- Have your activities led to the achievement (partial or total) of a result?
- To what extent are your results leading to the achievement of your specific objective?
- Are your assumptions fulfilled? If not, what are the implications?
- Are your indicators accurately reflecting your progress? If not why not?

### 1.2.2. External monitoring

The purpose of the monitoring process is to provide support and guidance to individual site managers and project management teams. It is designed to assist them in areas where they require support. The QAPT (Quality Assurance Project Team) will be able to offer an objective point of view and be „a fresh pair of eyes“ in assessing progress to date.

The timing of the formal monitoring visits will be agreed with project partners. The frequency of the monitoring visits depends on the complexity and the degree of risk of each project.

After the completion of the visits, a „Monitoring Report“ will be sent to site manager of visited project partner. This will include any corrective measures recommended. The format of this report is attached as **Annex III**.

## 2. TECHNICAL AND FINANCIAL REPORTING

### 2.1. Basic principles of reporting

There are two main purposes of the reporting. The formal reporting, by UKG, provides the necessary information to the Education, Audiovisual and Culture Executive Agency (EACEA) to assure them that our project is being implemented according to our contract and that payments should therefore be released. The six - monthly reports provide information to the PST (Project Support Team) to allow them to support project partners with implementation.

Reporting also helps us to view our progress objectively.

The six – monthly (technical and financial) reports are linked to transfer of grant to partners from UKG. The Final Report though must be approved by EACEA before the final payment to UKG is released. No report is required to secure the advance payment.

The reports should accurately reflect Project Partner (PP) progress during the reporting period, highlighting any key issues and providing justification for any deviations from the Description of the project as set out in Annex I of Grant Agreement.

It is significantly quicker to prepare the technical reports if information is added to them at the time the activity takes place. This can always be amended later but it makes sure that the recommendations for corrective action and for improving the programme are not lost. Equally, the Work plan should be updated whenever necessary changes are identified and submitted along with the six - monthly report if there are any changes. All changes must be justified in writing.

### 2.2. Standards of all reports

All reports should be typed and should be in English. Copy of each report and supporting documents should be provided to the PST, as well as an electronic version. Six – monthly report form are provided in the Annex 1 of Quality control manual.

### 2.3. Reporting schedule

Project partners are required to produce two types of technical and financial reports:

- Six - monthly reports (six in total), prepared by the project partners
  - I Partner Report – 30<sup>th</sup> September 2009;
  - II Partner Report – 15 days before deadline of Intermediate report, defined in Annex III of Grant Agreement;
  - III Partner Report – 30<sup>th</sup> September 2010;
  - IV Partner Report – 31<sup>st</sup> March 2011;
  - V Partner Report – 30<sup>th</sup> September 2011
  - VI Partner Report - 30 days before deadline of Final report, defined in Annex III of Grant Agreement;

- Final report, prepared by the UKG

The six-monthly reports are linked to a payment. Information contained in the reports will be reviewed as part of the monitoring process. It is not intended that these reports will provide all the detail of what is happening on the project. The six-monthly reports focus on activities and results. If further detail is required for clarification then PP will be contacted separately.

The Final Report is submitted along with your request for payment of the balance owed to UKG. Payment of this request is conditional on the approval of the Final technical and financial reports. The focus of the Final report is to assess the level of achievement of project's specific objective and to confirm how project activities will be sustained.

## 2.4. Six – monthly partner reports (Inter project reporting)

The UKG can only submit technical implementation and financial reports, as well as financial statements to the Commission by providing proof of progress of the project.

Therefore, in order to provide adequate information on the progress of the project, each Project partner has to submit a **Six – monthly partner report** to the UKG consisting of:

- **Technical report (Annex I)** describing the activities carried out and their outputs and results during the reporting period, and
- **Financial report (Annex II)** presenting the costs incurred in accordance with the approved Application Form.

The six – monthly financial report will be checked to ensure the following:

- Conformity of the expenditures with the budget of the project;
- Eligibility of the expenditures;
- Correct use of the procurement procedures, whenever required;
- Correctness and completeness of all supporting documents;
- Correctness of the calculations and exchange rates;
- That any changes which occurred between budget lines and/or headings are eligible and justified.
- All copies of the six – monthly reports must be signed in original by the appointed contact person;
- Expenditures must be in conformity, including full eligibility, with the approved Budget of the Grand Agreement.

If the PST is not satisfied with the documents presented they may make recommendations for how this situation can be rectified prior to the submission of the final report.

### 2.4.1. Technical report

Apart from narrative report on the action's implementation, describing local administrative and academic management, obstacles, mobility and other issues, Technical report must contain **Table of achieved/planned outcomes (one table per outcome)**, with following describing elements:

1. Activities carried out and indicators of achievement,
2. Planned activities and indicators for progress,
3. Any proposed changes (people involved, budget, remaining activities...).

Structure of Technical report:

- Report on the implementation of the project,

[info@wbc-vmnet.rs](mailto:info@wbc-vmnet.rs)  
tel.: +381 34 501 201  
fax: +381 34 501 901

- Statistics and indicators,
- Table of achieved/planned outcomes,
- Statement of costs incurred.

Next page describes some fields of Table of achieved/planned outcomes.

**EXAMPLE  
 USE ONE TABLE  
 PER OUTCOME :  
 ADD AS MANY  
 TABLES AS**

**Insert the title and reference number  
 as indicated in your project proposal**

**Insert the indicators of achievement and/or  
 performance as indicated in your project proposal**

**Insert specific indicators  
 (qualitative and quantitative)  
 which can help to measure the  
 achievement of the activity result**

Activities carried out to date for the achievement of this outcome

| Activity N° | Activity Title | Start date | End date | Place | Description of the activity carried out | Specific and measurable indicators of achievement |
|-------------|----------------|------------|----------|-------|---|---|
|             |                |            |          |       |   |   |
|             |                |            |          |       |   |   |
|             |                |            |          |       |   |   |
|             |                |            |          |       |   |   |
|             |                |            |          |       |   |   |

Activity number as indicated in the application

Insert the activity title as indicated in the project proposal

State where and when the activity takes place

Provide a brief description of the activity

Specific and measurable indicators of progress

Proposed changes from the original proposal for the outcome in reference

**Describe any change which occurred, compared to the original activity plan in the project proposal**

**Insert specific indicators (qualitative and quantitative) which help measure progresses towards achieving the required result**

## 2.4.2. Financial report

The Partner financial reports should be drawn up in Euro. In case that Project Partner is from State which have not adopted the Euro as their currency are participating in the project, the Project Partner shall convert into Euro the amounts of expenditure in the list of invoices incurred in national currency before submission report to UKG. The expenditures shall be converted into Euro using the monthly accounting exchange rate of the Commission in force in the last month of the reporting period. (<http://ec.europa.eu/budget/inforeuro/index.cfm?Language=en>).

Structure of Financial report:

- Staff costs table,
- Travel costs table,
- Equipment costs table,
- Cash flow

## REPORT ON IMPLEMENTATION OF THE PROJECT

|   |
|---|
| <p><b><u>OVERALL ACHIEVEMENTS</u></b><br/>         Please provide a description of the <i>activities carried out</i> since the start of the project and describe to what extent, the <i>results</i> achieved since the beginning of the project, are contributing to the project objectives.</p>  |
| <p><b><u>COHERENCE WITH THE WORKPLAN AND COMMENTS ON DEVIATIONS AND MODIFICATIONS</u></b><br/>         Please write in this section the main changes which have occurred compared with the original project proposal. (More detailed information is requested in the relevant sections below).</p>  |
| <p><b><u>OBSTACLES AND SHORTCOMINGS</u></b><br/>         Please describe any obstacles and/or shortcomings experienced during the period covered by the report and the measures taken by the project team to address them.</p>  |
| <p><b><u>DEVELOPMENT OF PROGRAMMES AND COURSES</u></b><br/>         Please provide a description of the teaching/training programme(s) (undergraduate /postgraduate programmes, intensive courses, training modules to academic or non-academic staff, etc.) that the consortium is developing or of the introduction of the new programme(s) and the state-of-play of these developments at the time of submitting the report. If unforeseen changes in the original plans occurred, please describe the type of changes and the measures taken to address them. Please also indicate the activities you plan to carry out before the end of the project. If this section is not relevant for your project, please write 'Not Applicable'.</p>                             |
| <p><b><u>RESTRUCTURING: UNIVERSITY MANAGEMENT AND GOVERNANCE</u></b><br/>         Please provide information on the institutional changes that the project is introducing in the Partner Country's consortium institutions, the state-of-play of project activities and any changes which occurred compared with the original plans. Please also indicate the activities you plan to carry out before the end of the project. Examples: establishment of new units/faculties, establishment/upgrading of libraries, establishment/restructuring of international relation offices, introduction of reforms to university governance (i.e. decision process, autonomy, accountability). If this section is not relevant for your project, please write 'Not Applicable'.</p> |
| <p><b><u>STAFF (RE-)TRAINING</u></b><br/>         Please provide a description of the activities carried out in order to train the staff of the partner country participating institutions. Please also provide an outline of the selection criteria for the different groups of people who have participated in the implementation of these activities. Please describe any change in comparison with the original proposal and indicate the activities that you plan to carry out before the end of the project.</p>  |
| <p><b><u>STAFF MOBILITY</u></b><br/>         Please provide an outline of the staff mobility scheme and the selection criteria used for the different groups of people that participate in mobility. Please describe the activities carried out so far, how mobility activities have been organized by home institutions and how mobility helped and/or will help achieve the project's objectives. Information about how the home institutions recognize the mobility should also be provided. If unforeseen changes in your original plan occurred, indicate the type of changes and the measures taken to address them. Please also indicate the activities that you plan to carry out before the end of the project.</p>  |

### **STUDENT MOBILITY**

*Please provide an outline of the student mobility scheme and the selection criteria for the different groups of students that participate in mobility. Please describe the activities carried out so far, how mobility activities have been organized by home institutions and how mobility helped and/or will help achieve the project's objectives. Information about how the home institutions recognize the mobility (credit transfer, double diploma, diploma supplement, etc.) should also be provided. If unforeseen changes in your original plan occurred, indicate the type of changes and the measures taken to address them. Please also indicate the activities that you plan to carry out before the end of the project. If this section is not relevant for your project, please write 'Not Applicable'.*

### **ACADEMIC CO-ORDINATION AND ADMINISTRATIVE MANAGEMENT**

*Please describe how the division of labor is managed between the various consortium institutions, for both academic co-ordination and administrative management. Particular attention should be paid to the description of how this division of labor is managed in areas such as communication and the decision-making process used. Please also describe how day-to-day project activities are managed; indicating what kind of administrative support or other support you have received from the partner institutions. If you encountered difficulties related to the management of the project, please indicate the type of problems and the solutions found to address them.*

### **EQUIPMENT**

*Please outline the equipment purchased, explain where the equipment has been installed, who will benefit from it and have access to it and plans for future maintenance. Please also describe the activities that you plan to carry out before the end of the project, in relation to the equipment purchased/installed. If unforeseen changes in your original plan occurred, indicate the type of changes and the measures taken to address them. If this entry is not relevant for your project, please write 'Not Applicable'.*

### **DISSEMINATION**

*Please describe what has been done to disseminate the results of the activities carried out to date, both within the framework of the project and outside the project. In particular, you should refer to the definition of tasks and the dissemination channels used to make the project results available to larger beneficiary groups. If a web site for the project has been created, please provide the address. If there have been any unexpected positive secondary effects from project activities, please describe them in this section. Please indicate any change which occurred in comparison with the original plans for dissemination and the activities you plan to carry out before the end of the project, to disseminate the project results.*

### **SUSTAINABILITY**

*A project is 'sustainable' when it continues to deliver benefits to the project beneficiaries and/or other target groups for an extended period after the EU's financial assistance has ended. Sustainability may not be relevant for all aspects of a project; in each project some activities or results may be continued, while it may not be necessary to continue others. Sustainability is relevant for issues such as: academic/socio-economic/institutional support (describe the measures undertaken to formalize or institutionalize any links with local non-university partners, to obtain official accreditation of new curricula, etc.), involvement of consortium members (ownership/motivation), effective management and leadership, active participation of the target group, forecast of needs, availability of resources to continue, making the most of results achieved and a measurable medium/long term impact (long-lasting effects of project cooperation, as well as impact on partner institutions and target groups). Please explain which of your planned activities and results must be maintained to make your project sustainable. Describe which measures have been taken so far to realistically ensure the continuity of those activities and results beyond the original life-cycle of the project (even when the project is no longer financed by Tempus). Please indicate any changes which occurred in comparison with the original plans and the activities you plan to carry out before the end of the project in order to ensure sustainability.*

**QUALITY CONTROL AND MONITORING**

*Please describe what monitoring activities the consortium carries out, in order to assess whether the project proceeds according to the workplan. Please describe the strategy for internal and external evaluation of project results and include measurable quality indicators for progress. In addition to the project results (courses, publications, new institutional structures, etc), you should also pay attention to the project management strategy. In particular, explain what instruments you use to ensure effective quality control (i.e. the Logframe approach, feedback questionnaires for evaluations or surveys, SWOT analysis, etc.) and who is involved in evaluation (i.e. committee(s), validation commission(s), accreditation board(s), etc.). For external evaluation, please mention the role of independent experts or peer reviewers providing a summary of their evaluation plan and report(s). Please indicate the activities carried out to date, any change which occurred in comparison with the original plans and the activities you plan to carry out before the end of the project.*

**ANY OTHER COMMENT**

*Please provide in this entry, any relevant information you think might be useful for the assessment of your project's implementation (i.e. synergies with other projects, any support from external environment, networking with professional bodies, etc.).*

## STATISTICS AND INDICATORS

This section aims to gather statistical data and indicators of performance for the period covered by this Partner Report.

### Training and mobilities

| <b>TRAINING OF PARTNER COUNTRY STAFF</b>  | <b>NUMBER</b> |
